

DISCOUNTED VEHICLE

MONITORING FOR

TEXAS MUTUAL POLICYHOLDERS

Texas Mutual is partnering with StriveSafe to offer policyholders 50% off monthly services to help reduce crashes, lower risk and save.

ROVR provides drivers and managers with a better understanding of driving behavior patterns, leading to more fuel efficiency and safer drivers. Companies using ROVR see as much as a 90% reduction in crash rates, and significantly reduced idling costs.

### SPEEDING

StriveSafe customers have seen a 60-90% reduction in speeding incidents in the first year of ROVR use.

### HARD BRAKING

StriveSafe customers have seen an average reduction of 27% in hard braking incidents in the first year.

### RAPID ACCELERATION

StriveSafe customers have seen up to a 47% reduction in rapid acceleration incidents.

### TOTAL DRIVING SCORE

ROVR generates a scorecard, which educates drivers on areas for improvement, and encourages risk-averse driving.
